Subject: EPA Response to Comments Received During Consultation Under the National Historic Preservation Act Regarding the State of Florida's Request to Assume Administration of a Clean Water Act Section 404 Program

Dear Secretary Valenstein:

On September 2, 2020, the U.S. Environmental Protection Agency invited the Florida Department of Environmental Protection (FDEP) to consult under Section 106 of the National Historic Preservation Act (NHPA) of 1966, as amended, regarding the request from the State of Florida to assume administration of a Clean Water Act Section 404 program. On September 15, 2020, your office responded by email and accepted EPA's invitation to consult. EPA and FDEP's continued communication during the consultation process is summarized in Enclosure A.

Provided in Enclosure B is a responsiveness summary that includes EPA's responses to comments received from FDEP and the other consulting parties during the consultation process. We are providing the complete responsiveness summary per the request of the Advisory Council on Historic Preservation (ACHP) and agreement of the consulting tribes during a December 14, 2020 meeting. EPA intends to execute a Programmatic Agreement (PA) pursuant to Section 106 of the NHPA with the ACHP, the Florida State Historic Preservation Officer, and FDEP prior to acting on the State of Florida's request and will send the FDEP a copy of the PA once executed.

We appreciate your engagement throughout the consultation process and your important feedback and input on the PA. If you have any questions regarding this matter, please contact me at (404) 562-9345, or have a member of your staff contact Mr. Kelly Laycock at (404) 562-9132 or [ [HYPERLINK "mailto:laycock.kelly@epa.gov"](mailto:laycock.kelly@epa.gov) ].

Sincerely,

Jeaneanne M. Gettle, Director  
Water Division
